PROFILE

Passionate and enthusiastic software engineer with a deep interest in AI/ML. Proven track record of designing and implementing successful full-stack web applications. Seeking a position to contribute to the success of a dynamic organization with a global reach.

PROFESSIONAL EXPERIENCE

Software Engineer 10/2020 – present
100 Devs

- Designed and implemented semantically structured full-stack applications.
- Collaborated with a cross-functional team of developers to build modern and responsive web applications using best practices.
- Built Restful APIs that served data
- Applied agile methodologies like SCRUM for project development and management of technological issues for assigned projects.

EDUCATION

Bachelor of Science in Computer Science 01/2012 – 05/2017
South Carolina State University Orangeburg, SC

SKILLS

Programming languages:

Java, JavaScript, Python

Web development:

HTML5, CSS3, JavaScript, React, Node.js

Databases:

MongoDB, SQL, PostgreSQL

Software development methodologies:

Agile, Scrum

Version control:

Git

Problem solving and debugging

Excellent communication and teamwork skills

Strong analytical and critical thinking abilities

Continuous learning and adaptability

PROJECTS

Book Up  03/2021 – present
Tech Stack: NodeJS, Express, and MongoDB

- Designed and implemented a book directory, allowing users to track and manage books.
- Conducted workload assessments and devised new operational processes that led to an increase in productivity.

Study Buddy  09/2022 – 10/2022
Tech Stack: NodeJS, Express, and MongoDB

- Closely collaborated with project members to identify and quickly address problems.
- Participated in the entire software development lifecycle, from concept and design to testing and deployment.
